👤 PROFILE

As a Junior Web Developer, I bring a strong foundation in the field of ASP.Net and Python Flask web development, as well as a willingness to learn and grow in this field. I have experience developing web applications and APIs and working with multiple programming languages and frameworks such as JavaScript, HTML/CSS, React, and Node. I am also familiar with database management and cloud computing platforms such as Google Cloud App Engine. As a collaborative team player, I thrive in fast-paced environments and am committed to delivering high-quality work on time. I am currently focused on building applications using back-end languages and frameworks like Express, Node.js, Python, Django. It is my aim to improve myself at this point and lay the foundations of being a qualified full-stack developer. I'm excited to join a team where I can contribute my skills and continue to learn from experienced professionals in the industry.

👜 EMPLOYMENT HISTORY

Localization QA Tester at Keywords Studios, Dublin

July 2022 — Present

- Testing, identifying, recording, and suggesting fixes to potential bugs in games relating to language, implementation, user interface (UI) and compliance issues.
- Taking ownership of side tasks, such as daily report, bug vetting.
- Functional testing, QA Localization, writing of test cases, reporting issues to JIRA/Excel, collaboration and contributing to the overall success of projects.

Junior .NET Developer at Final Group, Istanbul

June 2020 — September 2021

- As a part of the Final development team, I contributed to the improvement works on the web projects of Final. (Final, FinalShop, FDST, FinalKitap, FinalInteraktif)
- In line with the needs of the company, I contributed to the development steps of new projects on the .NET platform. (Internal systems such as FKYG, FinalIsTakip, FinalSmartZone)
- Technologies, languages, and frameworks I use here: C#, .NET, WebForms, Entity Framework, ADO.NET, LINQ, Angular JS, JQuery, AJAX, Html, Css, Bootstrap etc.

Software Test Engineer Intern at Siemens Turkey, Istanbul

July 2019 — September 2019

- I was in the project development stages of the software testing team.
- Using the "TIA Portal" interface, virtual PLCs were created, and various test operations were performed.
- Designed, implemented, and enhanced automation using Selenium with C# on the web servers which PLCs are connected.
- Getting information about Scrum Framework and participating in its applications.
- Manual tests were performed on the Web Server.

EDUCATION

Masters in Computing Science, Griffith College Dublin, Dublin

September 2021 — June 2023

Bachelor in Computer Engineering, Doğuş University, Istanbul

September 2015 — June 2020

CERTIFICATES

.NET Expertise Certification Course at BilgeAdam Academy, Istanbul

June 2018 — February 2019

- *Within the scope of this course, I learned about C#, OOP, SQL, HTML5, CSS3, JavaScript, ASP.NET MVC, ASP.NET Web API.*

IBM Full-Stack Cloud Native Application Developer Professional Certificate, Coursera

April 2023 — In Progress...
