Interpersonal
Communication

◦ HOBBIES ◦

Football, Movies, Reading, Traveling
Tennis, Music, Games

👤 PROFILE

Earned my Master's Degree in Computer Science from Griffith College Dublin in August 2023. As a Software Developer, I bring a foundation in the field of ASP.Net and Python web development, as well as a willingness to learn and grow in this field. I have experience developing web applications and APIs and working with multiple programming languages and frameworks such as C#/ASP.Net, Python/Django-Flask and React.js. I am also familiar with database management (SQL, NoSQL) and cloud computing platforms such as GCP and AWS. As a collaborative team player, I thrive in fast-paced environments and am committed to delivering high-quality work on time. It is my aim to improve myself at this point and lay the foundations of being a qualified full-stack web developer. I am convinced that I should acquire knowledge about the current popular technology stacks to excel in my individual work. With competition within the industry intensifying each year, I firmly believe that a software developer who doesn't continuously improve and stay up to date cannot thrive in this dynamic field. I am confident that my skills, dedication, and collaborative nature would contribute to your business goals.

📁 EMPLOYMENT HISTORY

Localization QA Tester at Keywords Studios, Dublin

July 2022 — July 2023

- Testing, identifying, recording, and suggesting fixes to potential bugs in games relating to language, implementation, user interface (UI) and compliance issues.
- Taking ownership of side tasks, such as daily report, bug vetting.
- Functional testing, QA Localization, writing of test cases, reporting issues to JIRA/Excel, collaboration and contributing to the overall success of projects.

Software Developer (.NET) at Final Group, Istanbul

June 2020 — September 2021

- Involved in Design, Development and Testing of Web Forms and Web Services using ASP.NET Framework.
- Designed and developed C# components for implementing business logic in 3-tier application interacting with SQL Server database using managed provider and ADO.NET.
- In line with the needs of the company, developed 5+ customized data-centric web applications using ASP.NET, C#NET, HTML, Services, LINQ, and SQL Server. (FinalShop, FDST, FinalSmartZone, FKYG, FinalInteraktif)
- Technologies, languages, and frameworks I use here: C#, ASP.NET Framework 3.x/4.x, ASP.NET Core, SQL Server, Entity Framework, ADO.NET, LINQ, AngularJS 1+, JQuery, AJAX, HTML, CSS, Bootstrap etc.

Software Test Engineer Intern at Siemens Turkey, Istanbul

July 2019 — September 2019

- I was in the project development stages of the software testing team.
- Virtual PLCs were created by using TIA Portal interface, and various test operations were performed on them.
- Designed, implemented, and enhanced automation using Selenium web driver with C# on the web servers which PLCs are connected.
- Getting information about Scrum Framework and participating in its applications.
- Used N-Unit for unit testing of the classes.
- Manual tests were performed on the web server.

EDUCATION

Masters in Computer Science, Griffith College Dublin, Dublin

September 2021 — July 2023

Bachelor in Computer Engineering, Doğuş University, Istanbul

September 2015 — June 2020

PROJECTS

Replica of Instagram, Python/Flask & Firebase & GCP

- **Skills:** *Firebase · Python (Programming Language) · Flask · Google Cloud Platform (GCP)*

Rent a Car Full Stack Web Application, MongoDB & Express.js & React.js & Node.js

- **Skills:** *Web Scraping · MongoDB · Express.js · JWT · Stripe · Redis · React.js · Node.js*

Electric Vehicles Database Application, Python/Django & PostgreSQL

- **Skills:** *Firebase · Python (Programming Language) · Django · PostgreSQL*

Calendar Application, Python/Flask & Firebase & GCP

- **Skills:** *Firebase · Python (Programming Language) · Flask · Google Cloud Platform (GCP)*

Burak Sag Personal Website, React.js

- **Skills:** *React.js · HTML5 · CSS3 · Bootstrap*

***Please check out my GitHub page for details and other projects.

CERTIFICATES

.NET Expertise Certification Course at BilgeAdam Academy, Istanbul

June 2018 — February 2019

- *Within the scope of this course, I learned about C#, OOP, SQL, HTML5, CSS3, JavaScript, ASP.NET MVC, ASP.NET Web API.*

IBM Full-Stack Cloud Native Application Developer Professional Certificate, Coursera

August 2023 — In Progress...
