Communication

○ HOBBIES ○

Football, Movies, Reading, Traveling
Tennis, Music, Games

👤 PROFILE

As a Software Developer, I bring a strong foundation in the field of ASP.Net and Python web development, as well as a willingness to learn and grow in this field. I have experience developing web applications and APIs and working with multiple programming languages and frameworks such as Python, HTML/CSS, React.js, and Node.js. I am also familiar with database management and cloud computing platforms such as Google Cloud Platform. As a collaborative team player, I thrive in fast-paced environments and am committed to delivering high-quality work on time. I am currently focused on building applications using back-end languages and frameworks like Python, Django, Express, Node.js. It is my aim to improve myself at this point and lay the foundations of being a qualified full-stack web developer. I'm excited to join a team where I can contribute my skills and continue to learn from experienced professionals in the industry.

💼 EMPLOYMENT HISTORY

Localization QA Tester at Keywords Studios, Dublin
July 2022 — July 2023

- Testing, identifying, recording, and suggesting fixes to potential bugs in games relating to language, implementation, user interface (UI) and compliance issues.
- Taking ownership of side tasks, such as daily report, bug vetting.
- Functional testing, QA Localization, writing of test cases, reporting issues to JIRA/Excel, collaboration and contributing to the overall success of projects.

Junior .NET Developer at Final Group, Istanbul
June 2020 — September 2021

- As a part of the Final development team, I contributed to the improvement works on the web projects of Final. (Final, FinalShop, FDST, FinalKitap, FinalInteraktif)
- In line with the needs of the company, I contributed to the development steps of new projects on the .NET platform. (Internal systems such as FKYG, FinalIsTakip, FinalSmartZone)
- Technologies, languages, and frameworks I use here: C#, .NET, WebForms, Entity Framework, ADO.NET, LINQ, Angular JS, JQuery, AJAX, Html, Css, Bootstrap etc.

Software Test Engineer Intern at Siemens Turkey, Istanbul
July 2019 — September 2019

- I was in the project development stages of the software testing team.
- Using the "TIA Portal" interface, virtual PLCs were created, and various test operations were performed.
- Designed, implemented, and enhanced automation using Selenium with C# on the web servers which PLCs are connected.
- Getting information about Scrum Framework and participating in its applications.
- Manual tests were performed on the Web Server.

🎓 EDUCATION

Masters in Computer Science, Griffith College Dublin, Dublin
September 2021 — July 2023

Bachelor in Computer Engineering, Doğuş University, Istanbul
September 2015 — June 2020

📰 PROJECTS

Replica of Instagram, Python/Flask & Firebase & GCP

- *Skills:* Firebase · Python (Programming Language) · Flask · Google Cloud Platform (GCP)

Rent a Car Full Stack Web Application, MongoDB & Express.js & React.js & Node.js

- *Skills:* Web Scraping · MongoDB · Express.js · JWT · Stripe · Redis · React.js · Node.js

Calendar Application, Python/Flask & Firebase & GCP

- *Skills:* Firebase · Python (Programming Language) · Flask · Google Cloud Platform (GCP)

Formula 1 Application, Python/Flask & Firebase & GCP

- *Skills:* Firebase · Python (Programming Language) · Flask · Google Cloud Platform (GCP)

Burak Sag Personal Website, React.js

- *Skills:* React.js · HTML5 · CSS3 · Bootstrap

***Please check out my GitHub page for more projects.
